

Permalife Flat trim boards

Permalife Inc. stocks a large variety of sizes and thicknesses of flat trim boards. Listed below are many of our standard sizes. We can provide board stock in any size up to our largest sheet size. Flat trim boards can be cut and machined, nailed, screwed, and glued, using standard carpenter tools. Machining the face will open up the grain of the material. Permalife Inc. will provide information on the methods for filling this texture to achieve a smooth surface, or we will be glad to quote you a price for doing the machining and finishing in house. These boards can be used where you would consider using wood, only you don't want it to rot, warp, split, or peel. Flat trim boards are available any width up to 48" and in the following lengths:

- 1" thickness 10' & 20' lengths
- 1/2" thickness 10' lengths
- 3/4" thickness 9' & 18' lengths
- 5/8" thickness 9' & 18' lengths
- 3/8" thickness 10' lengths
- 1/4" thickness 4' x 8' sheets only
- 1/8" thickness 4' x 8' sheets only

Order Code begins with FT- followed by trim size.

- Example: FT3/4x7-1/4x18' Example 2: FT1x23-1/2x10'
- Example 3: FT1/8x12x8' Example 4: FT1-3/16x47-1/2x8'

Please specify whether you are ordering actual or nominal sizes.

Discounts for full unit quantities - call for details.

Flat trim boards

Custom Signage by Permalife Inc.

* These beautiful signs and the entire frames are made of cast urethane by Permalife Inc. The sign on the left was painted to give it a metallic look, while the frame was wood grained. These particular designs are proprietary and therefore not available for resale. However, we will be glad to provide a quote for any designs that might interest you.

Sandblasted woodgrain

Permalife Inc. produces thousands of custom signs in a variety of sizes and textures. Quantities range from 5 or 6 to hundreds. You will be amazed at the detail. Our woodgrain signs are mostly indistinguishable from their real wood counterparts, however, they are made of durable cast urethane, and will not crack, rot, or peel. There is no better value in exterior signage than the products made by Permalife.
