

Permalife Inc. entry systems are a combination of finely crafted architectural elements that have the ability to transform a “front door” to a beautiful, “curb appealing” center of attention.

Our crossheads and combos can be made to virtually any size. Standard sizes for many of them are listed in the table below. Custom sizing is a daily occurrence at Permalife. Simply specify your required dimensions when ordering.

Panel Fluted Plain

Pilasters				
Product No.	Style	Height	Width	Projection
PIL790FL	Fluted	90"	7"	3-1/4"
PIL7108FL	Fluted	108"	7"	3-1/4"

PIL12120FL	Fluted	120"	12"	3-1/4"
PIL1290RP	Raised Panel	90"	12"	3-1/4"

Sunburst Segment Combo

Pilasters can be easily cut down to proper height for installation at jobsite. You can cut off up to 8” and still maintain proper appearance. They can also be factory built to custom sizes. Custom widths (up to 24” and wider), heights (up to 20’ and higher) and other special details can be accomplished by our custom department. Call for details.

Door Crosshead 18” custom

Door Crosshead 18” custom with segment pediment

Door Crosshead 18” custom with peak pediment

Acorn Combo

Peaked Pediment

9" Door Crosshead

Acorn Pediment

9" Door Crosshead with Keystone

Use this table to find the product code of the item and size that you need to order. Take the breastboard (base) dimension in the top row. Cross-reference this with the product style in the left column. This will give you the product code to use to place your order. If you need a custom sized item, use the next larger breastboard size and specify to cut down to the exact size you need.

WH6X210	210"	6"	3-1/4"

The sizes listed above are our standard sizes. All of our 6" windowheads can be made to any size. Order the next largest size and specify "cut down

All of our WH9 and WH6 windowheads can be produced with keystone, dentil trim, or both. Specify when ordering

WH10 Windowhead (WH9 with bottom trim)

RM9 Crosshead with keystone

RM9 crossheads are available in any size up to 18' lengths. All RM9 crossheads are made to order to the size you specify.

WHV55 with square end

WHV55 with angle end

WHV55 end profile

WHV8 with square end

WHV55 and WHV8 Crosshead

WHV55 and WHV8 crossheads are available in any size up to 18' lengths. They are available with or without keystone. All of these crossheads are made to order to the size you specify. WHV styles can also be made in radius pieces for arch or circle top windows. Now all your window trims can match.

Window Arch trims are now available with woodgrain

Using a special process devised by Permalife Inc. we can now apply a rough sawn cedar look to your arch trims to match the rest of your cedar trim. You will be amazed to see how our woodgrain follows around your trim like a curved tree that nature could never make, yet it looks so natural. Eliminate the joint failures that are so common when boards are cut and joined around circle top windows. You've got to see this!

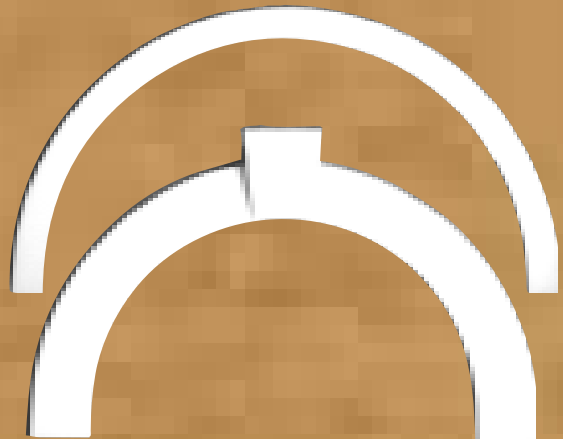

Peaked Crosshead

Peaked Crossheads are available in sizes up to 64" base (breastboard) dimension. The angle on top may be specified as 3/12-6/12-9/12 or 12/12.

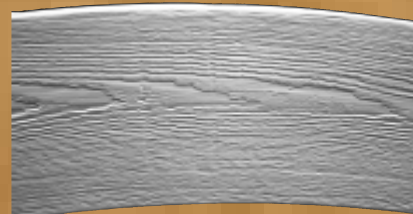

WA101 (Window Arch)

WA101 is standard at 101" wide- 17" high and 4" projection. It can be made on a custom basis to any size. Call Permalife Inc. for info.

Arch trims/Circle Top window trims

All arch trims can be made with or without keystones. All arch trims are made on a custom basis to your specifications. Standard widths are 3-1/2", 4", 5-1/2", and 6", but you may specify any width. We try to make most arch trims in one piece, however, due to handling and/or shipping constraints, some larger arch trims may have to be made in two pieces.

Custom Flat Arch Trim with Crown Shoulders and Keystone

All Custom Arch trims with shoulders are made on a custom basis. When ordering, please specify inside diameter, inside height, and base width of shoulders. For more info. and pricing, call Permalife Inc.

Custom arch top trim with keystone

Custom window header

Standard at 58" base-any custom size available

Custom window header #2

Window Cap

Window Cap is standard size at 36" wide-12" high and 7" projection. It can be made on a custom basis to any size. Call Permalife Inc. for info.

Round window trim with keystones

Custom eyebrow arch top trim with keystone

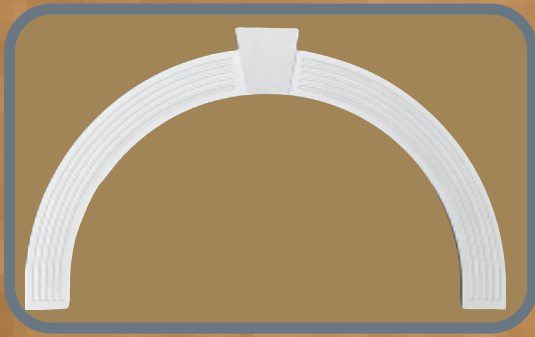

Custom window header #3

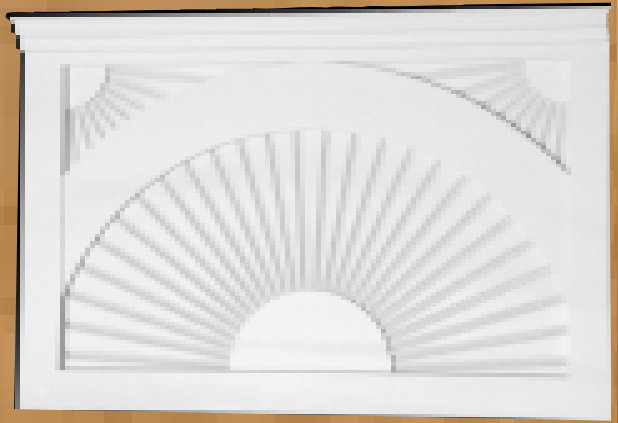

Siding

Many of our products can be factory routed to receive siding. This allows for siding to be tucked in behind the trim for a nicer appearance. This does not provide a "J" channel type flange. Proper flashing for weathertightness is the responsibility of the installer.

Fluted arch trim with keystone

Custom triple sunburst window panel

Custom arch trim with keystone and WH9 shoulders. Double fluted pilasters for side trim. WH6 for sill.

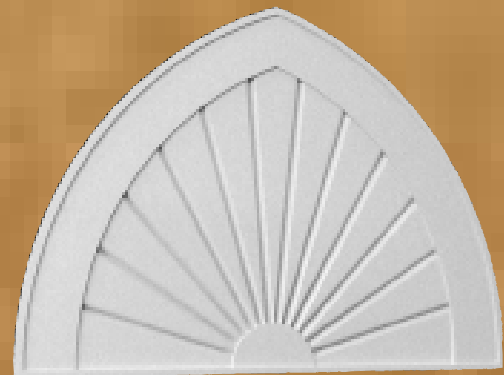

Arch trim with keystone and rosettes

WH9 window header with keystone, MM052 sill, MM061 side trim.

Custom window header #3

Gothic style Sunburst

Window Panels

Square cut

Panels can be cut with rounded "router cut" corners, or squared "assembled" corners. If not specified when ordered, they will be rounded. An upcharge will apply for squared corners.

Permalife makes window panels on a custom basis to any size you require. They also can be made with single, double, or multiple panels. Panels are generally square, however, we have made them arch top, oval, or round. These same panels can also be used as custom shutters.

Custom window arch with shoulders

WH9 window headers. Fluted pilasters for side trim. WH6 for sill.

Custom window arch with shoulders and keystone
